In any case, it really breaks my heart that so many pedes gave that imbecile any credence. Same goes for that fucking ridiculous QAnon bullshit.

I learned that we have pretty significant amount of gullible morons on our side too.

I called the Pence thing weeks before Lin did. He probably got the idea from my post!

During that process I got called a doomer, shill, etc. I replied with telling them not to be a gullible moron, that it's unproductive to attack each other here on the same side, and was told "you're cracking!".

Now the thread is completely nuked without a trace. I tried to go through my post history and can't find it. Pretty shady and not very transparent of this place. How do we learn from mistakes if we just pretend it never happened?

It's pretty easy to predict that politicians behave like politicians when it comes down to time for action. Not sure why this is ever considered a doomer position. People can have faith in Trump continuing to fight but call a spade a spade. Or a career politician a career politician.

This kind of stuff is a major part of the reason why I keep encourage people to consider regularly visiting imageboards (and also be smart about how they use them).

And this kind of stuff is also a major part of the reason why I suspect that this site has been taken over/infiltrated either partially or fully, and I have no idea for how long. I think there were genuinely sincere and good mods, and might well still be, but especially after January 6th...

We could have protested in the streets all day, every day, and it wouldn't have helped. Our actions had no effect on anyone important. Our only chance was doing something dramatic and frankly unpopular that actually affects everyone, like clogging up and shutting down the entrances and terminals of all the major airports for a week or two. And the time to do that, looking back, was before Dec 6.

That's been the biggest problem with all of this, the call to "inaction" from both of them. That it's all being handled.

I should mention that I don't want to shit on people that believed in it, either. Let's stop using terms like Q-tard and the like. People needed hope, too, and it's comforting to think that the shit was being dealt with. I remember, early in the Q thing, back when both TD and the great awakening were on reddit, it was really the Q people who were open to, and enthusiastic about, researching primary documents and making connections. I wasn't a Q believer, but analysis of FISA abuse, the AG report, congressional hearings, timelines and personnel connections were discussed on TGA when on T\_D such granular research would not gain traction or interest; the things that did so on T\_D were almost exclusively simple memes and laughing-at-libtards posts.

At that time, there was already some serious bullshit that would be constantly artificially upvoted on TGA. I remember especially one user whose posts would be all tenuous connections and gematria and mental illness. There would be a bunch of new accounts who would post cut & paste "wow!! this is amazing!!" posts that would be upvoted into oblivion, while the longtime users posting thoughtful rebuttals would be suppressed. It was pretty transparent. But aside from that, there was way more research going on there than anywhere else.

Because of that, I refuse to throw the Q followers under the bus, no matter how much was co-opted since then. There's also no benefit to us skewering our own, although it certainly does benefit our opponents.

edit: by "our own," I mean, for example, Q people as a group. When it comes to high profile bullshit artists like Lin Wood, have at it. He deserves every skewering heading his way.

Oh, don't get me wrong; it was also filled with people tweaking out about what red october or watch the water meant.

There was just a large group of researchers analyzing primary documents and we could highlight important bits in that massive IG report, for example, and there was a place for that. (It was about the same time as drawandstrike, UndercoverHuber &etc. were doing big twatter threads about this stuff, too.)

About the time I left, it had been pretty much swamped by things like macros of Obama dressed as bahomet being taken as serious evidence that he was demon possessed. So, there's that.

Either Lin Wood is insane or extremely good at larping an insane person.

...or really, really good at guerilla marketing.

Lots of lawyers do stupid shit to stand out, and end up being rewarded handsomely with a busy private practice afterwards: The team that defended OJ Simpson, the lawyer that defended (and banged) Casey Anthony, You name it...

A few do fuck up (Avenatti comes to mind), but most of them get insanely rich and busy after the cameras are done... even if they lose. For instance, the lawyer who worked for Al Gore in Bush v. Gore wound up getting millions of bucks working as a hired gun for the (lost cause of) SCO vs. IBM over Linux a few years after that.

Lawyers have a crowded field to compete in - gotta stand out somehow.

When every single one of a person's predictions fall like dominoes and their last domino is "God will make it so" and "Pray", then you know they've run out of logic-based arguments

Once idiots start magnifying the threads of truth it can be laughed off as conspiracy. The CIA is pretty good at this kind of operation, no? Too add, look at populist arguments against the fucked up capitalism we live in. It throws them off because they live under the impression that conservatives = support for big business. WalMart, Amazon, Big Tech, and other large corporations that stifle actual competition, I think is something both the left and right actually agree on. The difference lies in the approach to fixing it; the left wants a top down, heavy tax policy.

I'm assuming you mean specifically the stuff they blasted him for. But the problem with holding them to standards is that they have none. They are pathological; they can call you the literal offspring of Satan and Hitler for doing or saying something, then turn around and do or say the exact same thing because their motivations were different than yours and if the ends justify the means to them, then having the wrong ends can make the good means for them bad means for us, and they see that as logical consistency, not hypocrisy.

What would you say if I told you this wasn't the first stolen election in US history and that last time it was fixed by people reforming the voting system? It might be that you are correct, but armed conflict may take years to kick off if it ever does and does not guarantee any desired results, in fact most of the time it leads to less freedom not more (1776 was one of the only cases where such a rebellion happened in all of history). In the meantime we should be doing everything we can to fix the system and win by traditional means, the truth is the Maga movement was horribly disorganized and the RNC and DNC ran circles around our movement from the outset and sabotaged almost everything we started (it was a wonder anything worked at all).

I understand your viewpoint and agree regarding prior stolen elections. However many things have changed since then - primarily the fact that 95% of elections are now digital and big tech completely owns the digital world. You are correct though - if we are to have any chance at all, we must become unified (separated from Republicans) and much more organized. We must have specific plans for local level engagement that can lead to specific changes and every state approach them at the same time.

It doesn't on a federal level, but it is easier and much more likely that local politics and school boards CAN be cleaned up. Don't give up everything because of the massive corruption at the top.

The problem is we have basically 2 camps:

1. trust the plan
2. grab yer guns and go start a civil war

And none of these will work. #1 just failed us in broad daylight today. #2 is China's wet dream; to have us destroy ourselves.

Time to begin the long, slow, boring process of taking back local positions. Start with your neighborhood HOA, then schools, county-level stuff, etc. Things no one cares about and you can out-hustle whoever you're running against. It takes generations of hard work to undo generations of marxist infection.

10,000% this.

The legislatures in PA, GA, WI, and MI are or at least all were Republican. All the states that violated Article 2 need to be reformed so that can never happen again. They changed the rules to be able to keep counting votes, had that not been the case Trump would be president now.

There is no Dominion or secret counting servers in Germany or signature verification to lean on your state legislatures.

Instead.... what are we doing? Hashtag not my president, hashtag resist, hashtag LinWoodSaysToWait.... like fucking morons.

So I watched some of that and it amazes me how otherwise smart people go in for certain claims. Q and POTUS sometimes posted about the same holiday within minutes, mere minutes!?! So? The video itself acknowledges that other posts were separated by much greater intervals. Calling the time separation Delta and asserting that this means something...

Wikileaks was a real thing, but quoting from it doesn't mean Q had anything whatsoever to do with it (he didn't).

Please, your heart was in the right place and your motives were good, but Q lied to people. Not sure if Q started as a hoax, a joke, a well meaning LARP that got out of hand— but it just wasn't real. The President wasn't using a 4Chan troll to leave breadcrumbs and cryptic questions about decoder ring deltas in order to rally the forces of good against evil by... raising awareness in a ridiculous and not shareable fashion....

It can be really hard to acknowledge being deceived. Many victims of conmen prefer to avoid the authorities cause they're in denial and ashamed- or they lie to themselves that the money they sent will come back somehow...

I know a couple smart women who went all in on Q. One is now bitter and understandably deeply cynical about everything political seeing the extent of corruption. The other woman believes that Trump was already sworn into a second term and remains President. Trust the plan! WWG1WGA !!! Seriously, she thinks Trump is still President but from Florida... Q bullshit so infected her that she's in a parallel dimensions for now and won't even talk to anyone who won't concur.

Warning: The following is just pure speculation on my part and I'm just throwing it out there for shits and giggles.

I was thinking the other day that Trump was just more deepstate trickery to move the country closer to war.

- Trump was and outsider and astoundingly anti-war. Even the left acknowledges this. I think the fake news will play this part of his presidency up in the next 4 years.
- Trump was the first major politician to publicly speak out against China in half a century. Almost all of his supporters are now strongly anti-China.

If you were the deepstate and you needed to start WW3 between the US and China, how would you even begin to do it? You would need to take the population from extremely anti-war sentiment following the Bush administration to being in favor of WW3? How?? One way would be to convince half the population that China unleashed a bioweapon on the world and installed a manchurian candidate as the US president. Give him 4 years, pull some more fuckery to trick the left into hating China, and then put Trump back in as President. But now Trump has a mandate to go to war with China and the population will be begging for it.

We need to be extremely careful going forward. We were tricked by nearly every conservative leader there is except maybe Trump. But we can no longer afford to just trust people because Trump endorsed them. I'm very skeptical of all this talk about "We'll get them in 2024" and "A new political party". It would be stupid to not think we're just getting hoodwinked again.

Flynn fought tooth and nail to keep himself out of prison for defying Obama, Powell led a number of cases the SC was *supposed* to take, and Lindell legitimately compiled evidence to try and help.

When Trump started speaking and the mood rapidly changed at the 6th rally, I knew it was truly done. You could feel the betrayal in the air it was so thick. I hope someday Trump comes clean about what happened that day, because he did leave a lot of people hanging that showed up for him.

I hate to say it, but Trump was showing signs of weakness around Christmas time. What else do you do when you have a mountain of evidence of fraud, no court will listen, the media gaslights you, your own advisors and legal team are undermining you, etc. Then finally, the death blow is a false-flag attack. From what I can tell, Trump hasn't yet figured out that was a false flag attack, and not nearly as bad as reported.

Trump probably needs a long vacation right now, and then hit the ground running with whatever is next.

I don't think this is the end, I think this is the beginning. Afterall, I didn't really know anything about Trump until 2020, and I think in a way, the reaction to Trump has stirred up a lot of people into realizing that populism actually has a chance.

I agree that something was off, everyone said his speech that day was lacking in energy. Perhaps we'll know some day.

We now know who our true allies are. Why can't we have a grass root candidate? Like literally one of us. Even at a lower level. We can definitely do an absurd amount of work online for one of us to hold a seat in a deep R Congress seat. Then whoever it is can just screw them up 24/7 filibustering about America First all day.

Anybody with a law background saw it coming. The cases that made it to SCOTUS, as well as the "Pence card", were legally dubious Hail Mary's.

Why didn't they though? It was a bad strategic move from the outset. If the SCOTUS was all they had from the beginning of 2020 then they should have found a better plan. RBG dieing was an unknown and they should have had another path to victory then relying on SCOTUS.

I disagree. I believe that Patriots at the highest level in the military recruited DJT to run for president to assist them in saving the republic.

In these last weeks as Trump flew to the various military bases to garner support for the insurrection act, they pussied out. Hard liners of the deep state won and Trump was left all alone. Until last week I believe the insiders of Trump's team still believed the US military would take down the swamp.

I agree 100% with this. Perhaps they got what they wanted out of Trump and then abandoned him. Perhaps they took down people and we don't know about it.

I've said since around November 15th, unless this is sold to the American public and we are overwhelmingly pissed off about it, it's going to break our country apart to take everyone out with Martial Law / Insurrection Act. In the end, we probably have to keep our country together because Reconstruction isn't fun.

Maybe Trump decided the best course of action was to start a new political movement that would permanently supplant the GOP / Dems. I can guarantee you of one thing: Trump made some seriously interesting moves the past 4 weeks and I don't think Biden is going to be the President he wanted to be.

If there is an actual plan, and it involves anything outside of the normal governmental processes then realistically the Jan 20th is just an arbitrary date.

If the military or any group were planning on some sort of move against Biden and Co it doesn't make any difference the legal distinctions given to them by a system they are operating outside of.

Biden and Co have basically shown their full hand already. This is now a starting point for knowing what you are truly up against, a major military presence in DC of troops they openly admit they do not fully trust. A media / tech corporate oligarchy clearly biased against the constitution and the people and a list of Republican traitors.

This is all in response to a very small portion of Trump supporters, going unarmed and without actual violent intentions into the Capitol.

That's all Biden and Co have, I don't know that Trump or anyone legitimately has any major plan, but if they did, they have certainly taken the step to make the enemy present themselves in as much of an open fashion as possible.

Kyle Rittenhouse's bail fund.

We raised over \$3M for the kid's \$2M bail, because Wood and Pierce literally paid themselves hundreds of thousands of dollars out of the funds, without consulting Kyle or his family.

There's a five-letter word for that. Starts with an F, ends with a raud.

He also (IN MY OPINION) stole Kyle's bail money, along with this (FIGURATIVELY, HYPOTHETICALLY, ALLEGEDLY) thieving shit friend John Pierce.

I don't know if you know this, but all the money originally raised for Kyle, Lin Wood channeled into his foundation (which he pays himself a salary from). Pierce-Bainbridge then literally *paid themselves* \$300K from that fund.

No fucking lawyer on the planet racks up \$300K worth of charges before their fucking client is even *arraigned*.

I gave him several chances, and I'm not one to assist our enemy in attacking our allies.

The dude is fucking nuts though. There's a reason all his former partners are suing him for being abusive. He thrives on attention. He has no filter, and will promote any conspiracy theory without investigating it.

I've heard he thinks he might be the 2nd coming of Jesus, which I'm treating as unverified in the same way I treat Lin Wood's nonsense as unverified, but it does match his behavior.

The #1 thing I am frustrated by though is I feel he sucked other people into his trap. Sidney Powell. Michael Flynn. As MAGA we need to be skeptical of "our side." Not paranoid, not attacking each-other, but it's important we check our own facts.

For example:

- The election absolutely was stolen, likely millions of votes. However the "kraken" stuff distracted the entire legal process from EXTREMELY SOLID EVIDENCE of mass election fraud.
- The Q-anons who participated in the capital raid were tricked into participating in a false-flag attack, which hurt MAGA severely. I'd even bet that whole thing was orchestrated by the FBI or DNC.

- "Trust the plan" means don't do jack shit. Don't protest. Don't demand Barr is fired. Don't question injustice. Don't investigate. Hype yourself on hopium!
- Remember all the nonsense about Bill Barr laying traps? Bill Barr spent his entire time downing buckets of KFC and backstabbing Trump.

A lot of us called out Lin Wood when it became blatantly obvious he was unreliable, and his crazy started to come out more and more, and we were all shut down. Yeah, I'm a little annoyed, but I'm all about winning, and just hope everyone wakes the fuck up so we can start being realistic, and actually start working on strategies and tactics that address the world the way it actually is.

For example, we're not going to win any elections, unless we start LOCAL processes to fight election fraud. We need people LOCALLY calling out LOCAL judges that are corrupt and spreading the word. We need to stop waiting for results, and start trying to make results happen ourselves. Be strategic, creative, innovative, opportunistic, and (of course) realistic.

I hate to say it, but Trump did far more to expose the swamp for what it is and who is part of it, but made many mistakes in not draining the swamp, and in trusting various swamp creatures. It's time we fight in the real world, and not in fantasy land.

You nailed it. I was trying to warn people about Lin Wood but no one wanted to listen.

I was telling people when Barr wasn't doing shit that we needed to speak out. Yet I was told "Barr is acting weak to draw our enemies out"

Every setback was "part of the plan"

I'm exhausted at this point, I tried to get people to wake up along with a few others like you. I wish Trump actually took actions to drain the swamp because we are in for some very dark times now. Our beliefs are now labeled as dangerous and we are called "political terrorists" by Biden "who must be defeated." They are coming for us. People need to wake up and we need to fight.

I wish Trump actually took actions to drain the swamp because we are in for some very dark times now.

For sure. The biggest weakness of Trump was who he surrounded himself with. Robert Barnes had an interesting comment today, that (paraphrased) Trump would fairly often hire people who were dicks and unsupportive of Trump, but then leave his loyalists out to dry.

I feel that for a big part of Trump's first administration, much of what it accomplished was exposing the existence of the swamp, and how deep and corrupt it is. To be followed up by one of the most corrupt administrations will only make the contrast that much more stark. If MAGA starts getting people into positions in power, we're at least a little more aware about what to watch out for. What to not do.

By pointing out Trump's mistakes, I think we can learn and become stronger from them.

They are coming for us. People need to wake up and we need to fight.

I actually started months before the election on a project. People need to think long-term and strategic. It's both dark and an incredible opportunity. Heroes usually don't arise when there is no adversary.

Thanks for the effort post. Especially your point about diverting energy to LOCAL where it needs to happen (but is obviously less inviting because it's more effort and less exciting).

The biggest thing I've learned from these past few years, is that we need to invest heavily in developing software and a set of rules / principles for working out who to TRUST. Everyone here (including me) was conned by Pence, Mattis, Rex Tillerson, John Kelly, Barr, McConnell, Lin Wood etc. The voices that raised alarms were clearly never amplified as they should have been.

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ 2 ▼

– [FuckRioters](#) 2 points 2 hours ago +2 / -0

For sure. MAGA needs to setup infrastructure, which tracks who is reliable, and who is not. The purpose isn't to attack our own, but rather to establish a track-record.

Even people like Rand Paul, which I really want to like and support just keeps flopping on too many issues, and is tricked by the media. He's a good person, but the deep-state would railroad him 3x as hard as what Trump dealt with.

We can also look at a lot of other people that MAGA voted for this election, which we could and SHOULD have primaries. Many of them, if he had been paying attention LOCALLY, we'd have known they were pieces of shit. I hate to admit, that I discovered one of the people I did vote for turned out to be a complete RINO within 1-2 weeks.

The weakness of MAGA is we were too focused on Trump, but perhaps we'll take these lessons and be much stronger as a result.

A lot of people have given up on Lin, but I haven't yet.

What has he said that has actually been proven wrong so far? Nothing.

Who has launched a libel suit against him for his outrageous claims? No one, because doing so would open that person up to discovery.

Who on Team Trump has publicly distanced themselves from Lin? No one, other than a brief spat with Jenna Ellis.

If Lin was lying about everything, don't you think the Trump team would have immediately said "fuck this guy, don't listen to him"? Nobody said anything.

Lol, he claims to have Pence on video discussing murdering judges. If that's true, why is he keeping it secret? Why did he even announce it? He could have just uploaded it to some onion website. Then we'd all be able to see it, and they'd never be able to get rid of it, and they'd never know it was him.

But he doesn't do that. Do you think maybe it's because he's totally full of shit? What exactly has he done to earn your trust to this degree? He's done absolutely nothing but make a bunch of insane claims without and evidence whatsoever.

After Lin mentioned some unsavory things about Justice Roberts, Roberts decided not to preside over the 2nd impeachment against Trump, even though it's his job to do that. Could be coincidence but I found that interesting.

Time and money is all these people have, that's how they got the courts to flip the rules laid out by the state legislatures. Billions in the bank to BLM and no one saw a dime except for Biden's campaign. And now these special interest groups are being set up to receive FEDERAL funding from Biden. Yeah, they double dipped and can now afford to buy any outcome they can imagine.

Don't think that if they had a hair of a shot at suing the silence out of him, they wouldn't. They WISH they could sue him.

1. He was likely doing exactly what he was supposed to and discrediting people who made claims about voter fraud.
2. He's a fucking crackpot, and nobody believes anything he says anyway, so there is absolutely no damage being done by his bullshit.

Know what's frustrating?.....

I just checked...

This train does not have the technical capacity to decrease acceleration. Japan is right around the corner, we can drop you off there, not sure how getting closer to China solves your problems but OK PAL. :)

Saying Lin is a LARP, yet you didn't suspect Pence stabbing Trump in the back on the 16th. Lin did though. Q is another LARP I assume, that why congress has tried passing legislation to censor/discredit it? HR 1154? When you are on the same side as The DS, MM and Chicomms does that make you feel empowered? In control? Aware? is it because Alex Jones told you Q is fake? Interdimensional Vampire man? Employed fraudster Dr. Jerome Corsi to attack Q? Was the audience starting to dry up? (I followed AJ a number of years. I don't think he is compromised. But his business is threatened and he is desperate to see all of his hard work come to fruition.) Also, AJ knows all about FF operations, antagonist plants, how the CIA works. He can't tell the shills and subversives have worked tirelessly to discredit Q? Interesting

It's sad really. You all want to fight a war it seems but none have the stomach to not cry and quit after a bit of adversity. Admit it, you all clutched to every word, fake or true because you just wanted Evil to lose for once. And it will. To attack fellow patriots over "LARPS" is fucking stupid and it has effectively fractured this community. Wonder who benefits from that? They've been pounding TDW since the 16th with trolls, shills, old accounts, new accounts, fake news, fake accounts posting shit, fake this fake that. ALL geared toward eliciting an emotional

reaction out of you in a quick period of time. And it's been working like a charm. To sit and watch everyone get depressed and turn on each other (some even turning on Trump) is sickening and totally indicative of the fact that we can fight no civil war any time soon, as a populace. If these are the most fervent of Trump's supporters I don't want my safety being anywhere close to in your hands. Just my personal opinion. Love you guys but, this is lion time. The sheep should mingle elsewhere. Perhaps that's a bit harsh, but you didn't like the doomers 3-4 weeks ago, so try to be understanding. I know, it's hard.

Have you ever actually considered how much energy would have to go into LARPING all of this accurate, juicy foreknowledge? Lemme help you

<https://bookofqproofs.files.wordpress.com/2018/09/book-of-q-proofs-v1-3.pdf>

There are certain things in here no LARP could achieve, for obvious reasons. It is a very convenient and lazy excuse to discredit someone when you don't actually have legitimate arguments against them. Kind of like the term "racist". See how this works? Seeing a pattern here? You dope. I swear to fucking Christ God Almighty our Savior, if you say some dumb shit about JFK jr. or 10 days of darkness, I will lose my mind. Because that's ALL I hear about it. "I heard/saw/read a friend/follower/someone post about it once and I was like NAH". I have yet to meet a legitimate criticism.

Imagine if Trump let Biden take office so that he had no power to remove and arrest him? So that no "Orange dictator" headlines occur. It's in the military's hands now. The logical will fold in this hour. It sounds counter-intuitive, but if you look around, not fucking one of you can tell your head from your ass at the moment, and that's ok. But it's time for faith, prayer and remembering that no matter what happens we will struggle onwards to secure our homeland. Period. The proof is there. It's up to you to do the work. If that's asking too much you're in the wrong place.

I'm still skeptical about it honestly since there are many other ways you could cheat the election even if dominion wasn't the one doing the actual manipulation. You could input fake ballots the such. Plus all the obvious (video recorded) stuff of people trying to block poll watchers leads to many suspicions.

I don't know if there was election fraud but I also cannot confirm that there wasn't significant election fraud either. That's the problem. Anyone who says there was fraud or wasn't fraud with high certainty is simply speaking out of their ass. Way too many moving parts to know for sure.

Even Dems acknowledge fraud, but they say it wasn't significant enough to change results. Let that sink in a bit.

Project Veritas exposed one of the professional ballot harvesters in Texas and she's facing criminal charges.

It's not in dispute that state laws regarding elections were change illegally, but that was excused by Covid. Covid became an excuse to print and mail as many ballots as possible and then accept them back no questions asked.

Seriously, we can't rely on anyone but ourselves. If you ain't doing it, assume it's not getting done. Alright pedes, let's get our country back, let's dominate the local governments, and return rights to the states away from the federal government.

Dude went insane about a year ago. People got hooked on his energy thinking that any help is better than no help.

Clearly wrong, the man practically tried to co-opt MAGA for his benefit
